Department of Computer Science and Information Technology (PG)

Date: 14 Sept 2023

Report

Date – 14th Sept 2023

Time – 11.00am to 12.00 noon

Speaker - Mr. Madhukar Janjire (NET)
Assistant Professor,
MIT Cidco, Auragabad

Webinar of “Preparation of NET/SET Examination for Computer Science and Application Students” conducted by Mr. Madhukar Janjire sir, Assistant Professor, MIT Cideo, Auragabad for the students of MSc(CS) & MSc(IT) Students. He highlighted some major points how to prepare for exam as follows –

1. Paper pattern for both examination
2. Marking Scheme and selection criteria
3. Syllabus for NET & SET
4. How to prepare Topics and Question pattern
5. Some topics from subjected discussed in details
6. At last Question/Answer session conducted.

While giving the webinar, near about 35 students are present and listen patiently. This will be definitely motivated to students towards preparation of Such Examinations

“यशस्वी उद्योजक बनण्यासाठी प्रामाणिकपणा, शिस्त व वेळेचे नियोजन आवश्यक” - मा. मानसिंगजी पवार, एमआयटी सिडको महाविद्यालयामध्ये “उद्योजकता विकास” एक दिवसीय कार्यशाळा

आज दिनांक 04/10/2023 रोजी एमआयटी सिडको महाविद्यालयामध्ये “उद्योजकता विकास” या विषयावरती एक दिवसीय कार्यशाळा आयोजित करण्यात आले होते. या प्रसंगी प्रमुख वक्ते व पाहुणे मा. मानसिंगजी पवार, डायरेक्टर रत्नप्रभा इंडस्ट्री प्रा. लिमिटेड, मा. मुनिशजी शर्मा, डायरेक्टर जनरल, एम. आय. टी. युप ऑफ इन्स्टीट्यूटस, उपप्राचार्य डॉ. महेंद्र कोंडेकर, सर्व विभागप्रमुख, सर्व प्राध्यापक वृंद व सर्व विद्यार्थी उपस्थित होते.

कार्यशाळेचे उद्घाटन दीप प्रज्वलनाने मान्यवरांच्या हस्ते करण्यात आले. सदर प्रसंगी बोलताना प्रमुख वक्ते मा. मानसिंगजी पवार यांनी स्वातंत्र्य पूर्व काळापासूनच्या भारतीय अर्थव्यवस्था व व्यवहार यांचा आढावा घेऊन सध्याच्या काळामध्ये नव उद्योजक बनण्यासाठी स्वतः मध्ये प्रामाणिकपणा असणे, आवड असणे व आत्मविश्वास असणे अत्यावश्यक आहे. तसेच सरांनी १९९० सालानंतर भारतीय उद्योजकता खऱ्या अर्थाने कशी वाढली यावर आपले विचार मांडले. सरांनी मुंबईचे डबबेवाले यांचे उदाहरण देऊन गेल्या १३३ वर्षांपासून ते शिकलेले नसतानाही कशे उत्कृष्ट उद्योजक आहेत याची माहिती संदर्भासहित सांगितली.

१९९० पूर्वी उद्योजक बनण्यासाठी भांडवलाची आवश्यकता मासत असे पण सध्याच्या काळात तुमच्या जवळ जर विद्वता, हुशारी, कल्पना शक्ति व समाजासाठी काम करण्याची तयारी असेल तर आर्थिक ताकद निर्माण करू शकतो जसे की इन्फोसिस, मायक्रोसॉफ्ट, अमेझॉन, ओला ला सुरु केलेल्या उद्योजकांनी फक्त माहिती तंत्रज्ञान च्या विद्वते वर केले आहे. काहीतरी नवीन करण्याची इच्छा व तुमच्या जवळ थोडासा अनुभव असेल तर तुम्ही एक सफल उद्योजक बनू शकता त्यासाठी सुरवातीला फक्त आवडीचे जे काम मिळेल ते करणे जरूरी आहे. यश लगेच मिळत नाही किंवा त्यासाठी कोणताही शॉर्ट कट नाही, त्यासाठी प्रयत्न व आत्मविश्वास खूप अत्यावश्यक असतो.

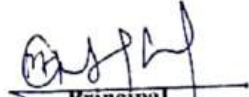

त्यानंतर मा. मुनिशजी शर्मा, डायरेक्टर जनरल, एमआयटी युप ऑफ इन्स्टीट्यूटस यांनी अध्यक्षीय समारोप केला. अध्यक्षीय समारोप करताना सरांनी जेफ बेजोस यांनी अमेजॉन ची स्थापना कशी केली व पहिले पुस्तक ऑनलाइन पद्धतीने कसे विकले याविषयीची माहिती सांगितली. जर तुमच्या कडे कल्पना व इच्छा शक्ती असेल तर तुम्ही उत्कृष्ट उद्योजक बनू शकता हे सांगून मुलामध्ये आत्मविश्वास वाढवला.

कार्यक्रमाचे सूत्रसंचालन प्रा. सुषमा सपकाळ, प्रास्ताविक महाविद्यालयाचे उपप्राचार्य डॉ. महेंद्र कोंडेकर यांनी केले. प्रमुख पाहुण्यांचा परिचय प्रा. रंजय काळे व कार्यक्रमाचे आभार प्रदर्शन प्रा. भास्कर कदम यांनी केले. व कार्यक्रमाची सांगता राष्ट्रगीताने झाली.

Pre-registration is mandatory

Date & Time : 10th Oct. 2023 @ 11.00 AM

The Department of CS & IT [PG], MIT College, CIDCO, Aurangabad recently organized an insightful workshop on AI for Student Success. The event was held on October 10, 2023 at 11:00 AM in the seminar hall and hosted by Mr. Akshay Walimbe.

The workshop provided a comprehensive introduction to AI, explaining the different types and latest trends in the field. Mr. Walimbe highlighted why AI should matter to students and gave relevant examples of current AI tools and their applications.

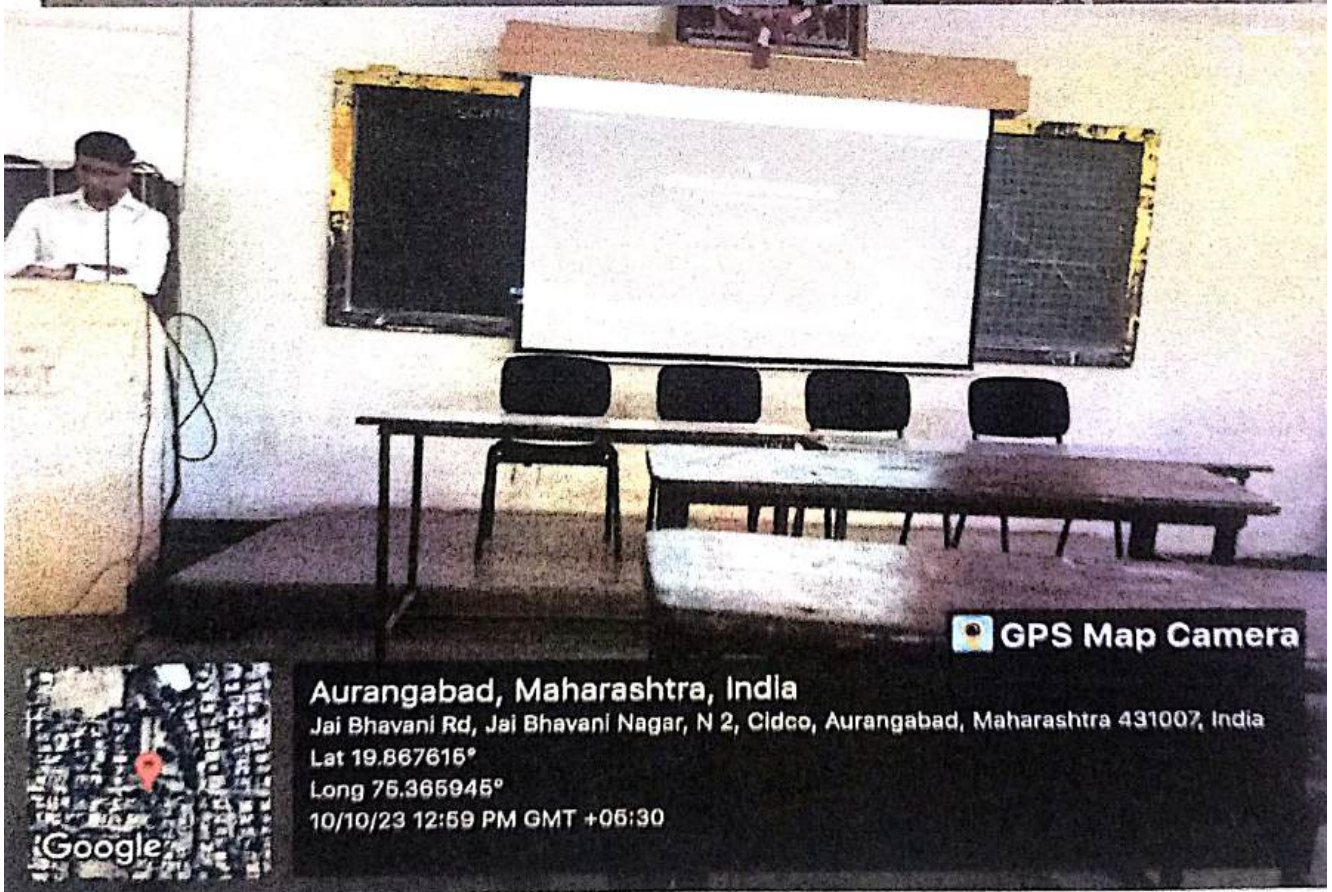

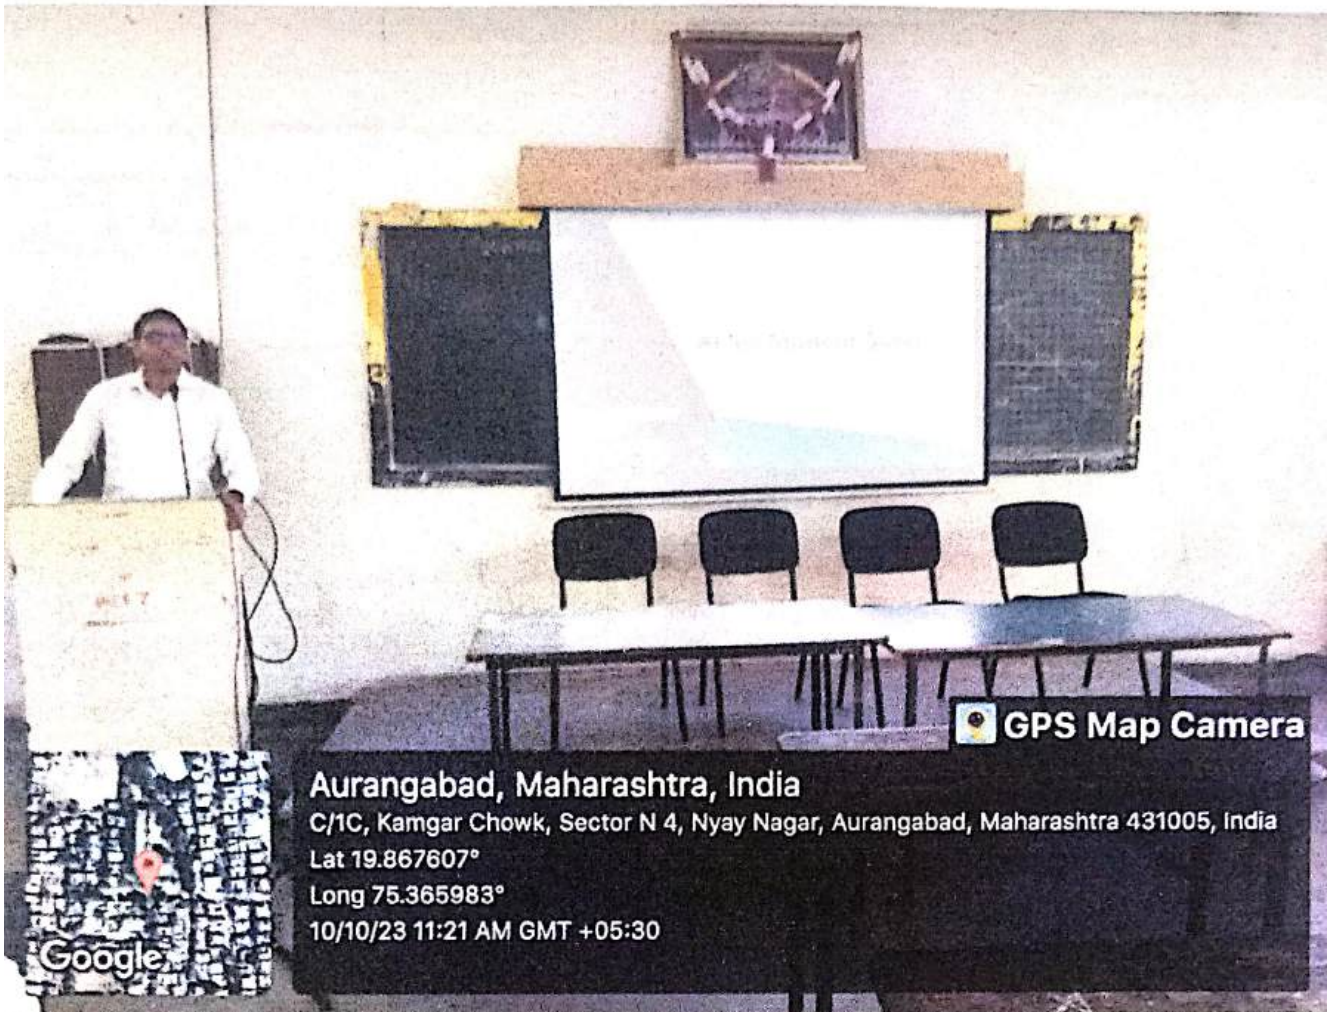

As a hands-on workshop, attendees got to interact with ChatGPT and some other recent AI tools, and learn how such AI assistants can be helpful for tasks like answering student queries and providing academic support. Overall, it was an engaging session that gave students practical exposure to an emerging technology that could benefit their academic journey.

The workshop achieved its goal of demonstrating the potential of AI and equipping students with knowledge to utilize such innovations. Mr. Walimbe's insights on real-world AI use cases made the concepts more relatable.

Seminar Report

On

"IoT and Its Application

Mr Atharva Gavpande who is a corporate trainer and also has his own consulting business in the field of IoT, accepted our proposal for conducting the seminar on the said topic. The session started with the introduction of the guest speaker by Prof. Neha Sahuji in the presence of Principal Dr. Mahendra Kondekar, Prof. Ranjay Kale, Dr. Shashibala Rao , Dr. Sonal Bachao and Prof. Sushama Sapkal. Prof. Ranjay kale sir advised students to update themselves with the current technology along with other skills required. Prof. Khan M.N. the training and placement officer of MIT, emphasised to students the importance of the said topic and its significance in the future career options. Dr. Mahendra Kondekar motivated the students to acquire themselves with emerging technologies. The Seminar was attended by 40 students and few staff members.

Mr. Atharva Gavpande gave introduction about, "The Internet of Things (IoT)". He mentioned that IoT represents a network of interconnected devices that communicate and exchange data with each other over the internet. This concept extends beyond traditional computing devices like PCs and smartphones, encompassing a vast array of everyday objects embedded with sensors, software, and other technologies.

IoT has transformed various sectors, including healthcare, transportation, agriculture, and smart cities, by enabling greater efficiency, real-time monitoring, and automation. Understanding IoT is crucial as it shapes modern technological advancements and daily life improvements.

He covered the prerequisite for the future scope. And some of the highlights of the seminar included:

Devices/Sensors: Physical objects with embedded sensors that collect data from their environment
Connectivity: Technologies that allow devices to communicate, such as Wi-Fi, Bluetooth, and cellular networks.
Data Processing: Platforms and software that analyze and interpret data collected from IoT devices.
User Interfaces: Applications and dashboards that allow users to interact with IoT systems.

Sensors and Actuators, Sensors gather data from the physical world, while actuators perform actions based on this data. Examples include temperature sensors, motion detectors, and smart thermostats. IoT devices use various communication protocols, including MQTT (Message Queuing Telemetry Transport), CoAP (Constrained Application Protocol), and HTTP/HTTPS for data transmission. Cloud platforms provide scalable storage and computing power for processing and analyzing data generated by IoT devices. They enable data access from anywhere and support advanced analytics.

Edge computing involves processing data closer to the source (i.e., on the device or nearby edge server) to reduce latency and bandwidth usage compared to cloud computing. IoT devices in smart homes include smart thermostats, lighting systems, and security cameras that enhance convenience, energy efficiency, and security. Wearable health monitors, smart medical devices, and remote patient monitoring systems improve health management and patient care. IoT applications in transportation include vehicle tracking, smart traffic management, and logistics optimization to enhance safety and efficiency. Precision farming technologies use IoT for soil moisture monitoring, crop management, and automated irrigation systems to increase agricultural productivity. IoT

devices can be vulnerable to cyberattacks, and securing these devices is crucial. Privacy concerns also arise with the collection and use of personal data. The lack of standardization among IoT devices can lead to compatibility issues, making it difficult for devices from different manufacturers to work together seamlessly. Handling the massive amounts of data generated by IoT devices requires effective data management and storage solutions. IoT combined with artificial intelligence (AI) and machine learning (ML) can enhance automation and predictive analytics, leading to smarter and more adaptive systems. The rollout of 5G networks will significantly improve IoT connectivity, offering higher speeds, lower latency, and the ability to support a greater number of connected devices. Blockchain technology can provide enhanced security and transparency for IoT systems by creating immutable records of transactions and interactions.

The seminar was coordinated by Dr. Shashibala Rao. The vote of thanks was proposed by Asst. Prof. Khan. M.N.

Seminar on
“Overall IT Landscape and opportunities in Cyber Security”

Speaker -

Mr. Suryakant Dhakne
Technical Director of Product
Security, Druva Data Solutions, Pune
& Alumni of MIT CIDCO, Chh.
Sambhaji Nagar

Date : 06 Jan 2024, Sat

Time – 2.00 pm
Hall : C-7

Date & Time : 06th JAN. 2024 @ 02:00 PM

The Department of CS & IT [PG] and IQAC CELL, MIT College, CIDCO, Chh. Sambhajinagar recently organized Seminar on “Overall IT Landscape and Opportunities in Cyber Security”. The event was held on JAN 06, 2024 at 02:00 PM in the C-7 Hall and hosted by Mr. Suryakant Dhakne.

Program is start with preamble and introduction of Mr. Suryakant Dhakne. Program was initiated by Vice Principal Dr. Mahendra Kondekar.

Suryakant Dhakne is prominent Alumni of MSc (IT) 2012 Batch of MIT CIDCO. He has 14 years of Experience in IT Industry. He is currently working as Technical Director of Product Security at Druva Data Solutions. He is Certified Ethical hacker and has worked with companies like L&T, McAfee, Riverbed technologies, Nuance (Now Microsoft).

The seminar on "Overall IT Landscape and Opportunities in Cyber Security" provided a comprehensive exploration of the dynamic field of Information Technology (IT). Mr. Suryakant Dhakane, an industry expert, delivered an insightful presentation covering the evolution of the IT industry, emphasizing its crucial role in driving innovation, process optimization, and global connectivity. Attendees gained valuable insights into the diverse roles available, from programming and system administration to cyber security and data analytics.

Mr. Dhakane underscored the increasing demand for IT professionals globally, emphasizing the importance of continuous learning and adaptability in the rapidly evolving IT landscape. Vote of thanks given by IQAC Co ordinator Mr. Ranjay Kale.
